Re: NPDES Permit No. ID000002-7  
Permit Renewal Application

To Whom It May Concern:

Attached you will find:

- Completed Form 1 – General Information.
- Completed Form 2C for an existing mining operation
- Back up documents.

In the interest of paperwork reduction, current year analytical data has been attached. EPA has already received analytical data in the form of Discharge Monitoring Reports and back up documentation for this facility on a monthly basis since the current permit was assigned in July of 2007. If more back up analytical data is needed, please don't hesitate to contact me.
